The call loan rate in New York arose at an early hour to yesterday's 51-2 per cent, maximum rate, and the sterling exchange rate ran off in response aithough it steaded again inter in the day. The call loan rate of the latter part of the day exceeded the maximum of yesterday. The cautious temper of the speculation is directly due to this influence. In the dulness which results, consideration is diverted to some of the more distant problems offering for solution.

COTTON MARKETS.

NEW YORK, November 10.—The cotton market showed sensational strength again to-day with prices at one time ruling only 10 or 12 points under the high records of the senson made-hast week and showing a recovery of over a cent a pound from the low level or Monday, Realizing caused moderate reaction later, but while the closing tone was barely steady last prices were 10-2; points net higher, with active months ruling about 11-972 points above last nights.

Close.

EUGS-Market continue active with moderate receipts.

POWING THE WEEK—Three and lower. Other stock about steady Dress-and lower. Other st

points net higher, with active months ruling about 11@72 points above last night's close.

The opening was firm at an advance of 5@ it points on a renewal of the excited buying movement, which developed yesterday, and which was encouraged this morning by the buillish character of yesterday's late news from the Southern markets and by the strength of the Liverpool cables. There was, of course, a great deal of realizing but before the advance was checked active months had sold 312-33 points above the closing figures of last night. At this level buill support was less aggressive, and profit-taking increased, but after seiling off about 2027 points from the best the market firmed up again and more than recovered the loss, for as soon as offerings for long account appeared to be "petering" out there was a renewal of support from buillish sources, and with early advices from the South indicating generally higher spot markets again to-day, the market met with little opposition. January contracts sold at 13.53 and May at 15.20, or 359.35 points set higher. New Orleans and local buils were realizing later, sending January off to 14.53 and May to 15.07 at the close. Southern spot markets officially reported early were generally 154% he. net higher, and many of the markets are stid to have recovered all their recent loss, being now at practically the same prices ruling when futures were at the high point last week. Runnors are circulating here that the buls have accumulated a vast quantity of contracts for May delivery, and that position increased its position over January by about 5 points during to-day's trading.

Receipts at the ports to-day were \$8.51 bales against \$15.50 bales against \$2.52 last week and \$15.00 last year. To-day's receipts at New Orleans \$15.00 bales against \$2.531 last year.

NEW ORLEANS, November 10.—COTTON—Spot cotton firm, 5-15c, higher; middling, 115c. Sales on the spot 2,025 bales and 2,500 to arrive. Futures opened steady at an advance of 15-917 points on a much higher Liverpool market than expected. After the first call the market became exhausted, a huge volume of buying orders came in, and prices sinct upward until they stood 38/439 points over yesterday's closing. This advance of 32 a bale took place in the first hour of trading, and was followed by a reaction of about 15 points, caused by scalping shorts taking pronts. In the afternoon the market was again strengthened by advances of from \$60.5c. a pound in the price of spots at nearly all of the important cotton centres in the South, and a recovery to almost the highest of the day was made. Just before the closing, however, offerings from profit-taking longs increased and the market saged off, closing barely steady at a net advance of 18-920 points. Futures closed barely steady. Closing barely steady at a net advance of 18-920 points. Futures closed barely steady. Closing barely steady at a net advance of 18-920 points. Futures closed barely steady. DRY GOODS MARKET.

NEW YORK, November 10.—The cotton market was somewhat steadfer and transactions were more numerous during the day. The effect of the break in cotton is still felt as jobbers are more timid. Fall knit goods are being opened for the 1916 scason in woolens and worsteds, but the cotton lines are not priod. Lines of fine silk piece goods and ribbons are slow, but specialities in slik and cotton, foulards and tuffetas for lining purposes are in demand.

Time.

Harvard, Yale, Dartmouth, Pennsylvania, Lafayette, New York University, Pennsylvania State, Washington and Jefferson, Minnesota and the Princeton freshmen have closed their season they come through without a defeat. They won all their games except two, being tied by the Yale freshmen and by Mercersburg. Harvard, Yale and New York University have neither been beaten nor tied, while Yale and New York University have neither been beaten nor tied, while Yale alone has not been scored on, but find the Yale alone has not been scored on, but find the Washington and Jefferson goal line. W. and J. has the excellent record of 106 points to 3 for opponents.

Out of over forty teams all but eight have made more points than have been made against them. The eight are Amherst, Bucknell, Bowdoin, Maine, Stevens, Tufts, Gettysburg and Dickinson. The Navy eleven hasn't much of a margin on the right side upon the field and told the official Chicago was not entitled to the count of the most event. The hash was both allowed their opponents to total over 100 points. The Corneli team is making one of the most event. Full records of any of the elevens. It hasn't made over sixteen points in any one game, has been scored on in every game but one and has lost three out of six games.

The following week. It is practically invincible."

In the Chicago-Northwestern game last staturday was an incident described as "probably unparalleled in the Chicago. Wotstern' Toothall." The "Western' Potation!" The "Western Toothall." The "Western Toothall." The "Western Toothall." The ball was caught by Page, of Chicago, who took a unbing over the heads of the Northwestern backfield back for a punt. The ball was caught by Page, of Chicago, who took it salling over the heads of the Northwestern backfield back for a punt. Coach Gammons, of Brown, whose team has been beaten by both Harvard and Yale, says the outcome of the Harvard-Yale battle is one of delightful uncertainty. He doesn't think Harvard has anything worse than an even chance, and says nobody but a rabid partisan can prophesy anything but a close and hard-fought game. In the backfield, he says, the Crimson attack seemed more concerted and therefore more powerful than Yale's, the Harvard players showing marked ability in gathering about the runner. The
